## **STEZKY / PATHWAYS**

Stezky / Pathways is an art project created by Sonya Darrow and in partnership with the National Czech & Slovak Museum and Library (NCSML). The artist will explore pathways across Iowa inspired by Czech settlements; mapping the cultural landscape through objects, sounds, and folklore. The communities include Cedar Rapids, Ely/Solon, Tama, Chelsea, Clutier, Vining, Protivin, and Spillville. The project will create a wider narrative on Czech-American identity through artwork inspired by each community's cultural heritage. Sonya will use her own identity "(319)Czech" to engage these communities through presentations that inspire and cultivate the importance of heritage. The result will be an exhibition at the NCSML on June 24, 2017, along with a book that documents Sonya's journey across Iowa.
